The American Drones Facts and Numbers

This is dedicated ..

To the souls of those who got killed in the path of Allah ..

To those who live under the surveillance of predator drones and witnessed the barbarity of its attacks ..

To those who seek victory (nasr) and to migrate for the sake of Allah (hijra) ..

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness".

"But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security".

Quoted from the US Declaration of Independence

July 4, 1776

"I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a wood, and I--
I took the one less travelled by,
And that has made all the difference."
"The Road Not Taken" by Robert Frost.
1874- 1963

1952 Killed
In Yemen!

3378 Killed
1389 Wounded
In Pakistan!

170 Killed
In Somalia!

All of them are victims Of the American Drones!

These numbers were announced by the U.S Congressman

Dennis Kucinich

The death toll is increasing every day!

349 Americans' air raids attacked civilian Pakistanis by drones!.

Drones that violate humans... even children!... and violate the sovereignty of Pakistan!.
The scary noise of these warplanes... The destroyed houses...
All are repeated scenes.

(It's normal that no one can go to bed under such wheeze. The drone blows up as a blind man! That It can kill anyone in anyplace at anytime!).

(Abdul-Wahid... Waziristan)

(There is only one way to get sleep now. That is taking sleeping pills; as many people do here. Without these pills you won't be able to sleep all the night!).

(Mateen-Khan, Pakistani).

Imran Khan, the Pakistani former world champion of Cricket said to the media during a protest that held up against drones strikes: (If I would become the president of Pakistan I would agree to shoot down the U.S any plane that attacks our country!. This is considered as a violation of the Pakistani sovereignty".

"For Americans, We are nothing! Our lives worth nothing!".

(An angry Pakistani man speaking up to the American journalist, Medea Benjamin).

138 Air raids by U.S military aircrafts; F-15 warplanes!, and other drones carrying Hellfire's rockets in Yemen! Planes which are hitting civilians for mere suspicion!. (The U.S drones continues to reap the lives of civilians in Yemen, which is embroiled in the war against terrorism in its own way where civilians... women and children are the most prominent victims).

Tawakul Karman, a Yemeni female journalist who won the Noble Peace Prize.

"A Taxi was hit by an American drone few weeks ago! All of the civilians in the taxi were killed! I wonder if every taxi driver must get a license from the U.S Department of defence to prove that he doesn't belong to Al Qaeda Group and that all of the passengers are civilians!".

(Yemeni)

A Yemeni little girl answered our question about her feelings over these air strikes on their village:
"My Mother did not panic... but I was afraid... It's scary".

Little Yemeni child answered the same question saying- acting bravely-:
"I wasn't afraid! I'm not a coward! But my brother felt scared when the sky turned red".

And not the last!,

We ask every Yemeni:

Why?

What's there guilt?.

"Ignoring the U.S drones massacres in Yemen is a moral, religious, and humanitarian crime! Why no one is speaking up against these crimes!

Is it because the criminal is American?."

The Palestinian journalist Abdel Bari Atwan, the Editor of Al-Quds Al Arabi.

Benjamin The author of Drone Warfare: Killing by Remote Control, wrote an article titled with- Drones Create Enemies:

(I recently returned from leading a US delegation of 34 Americans to Pakistan, looking at the results of US drone attacks. We found that drones are actually jeopardizing our security by spreading hatred of Americans and sowing the seeds of violence for decades to come... In the tribal society of Waziristan where the drones are attacking, we learned that people who have lost their family members in these deadly attacks are bound by the Pashtun honor code — Pashtunwali — to retaliate and seek revenge.)

Imam Anwar Al-Awlaqi... an American citizen who is originally from Yemen,
And who killed by U.S drones strike in Yemen,
Said in a talk that he sent to American people:

(I for one, was born in the US, I lived in the US for twenty-one years. America was my home.)

(I was a preacher of Islam, involved in non-violent Islamic activism. However, with the American invasion of Iraq, and continued US aggression against Muslims, I could not reconcile between living in the US and being a Muslim,

And I eventually came to the conclusion that Jihad against America is binding upon myself, just as it is binding on every other able Muslim.

Nidal Hassan was not recruited by Al-Qaida.

Nidal Hassan was recruited by American crimes, and this is what America refuses to admit!).

Drones... the dangerous threat to the world:

Drones considered as a global threat to the world air traffic. Several dangerous incidents were about to happen in the air because of its secret directions.

In the African atmosphere... one of the American drones was about to collide with a NATO aircraft.

Another drone in Somali atmosphere was about to collide with a civilian passengers plane over Mogadishu.

The United Nation expressed its aggravation and warned from such serious danger.

Americans Create Enemies Faster Than They Can Kill Them!

Peter Singer, a director of defence studies at the Brookings Institution and the author of...

Wired For War

Said:

"We have come to a turning point in the history of war, and perhaps in the history of humanity...There were only a handful of Drones when the United States invaded Iraq in 2003. Today, there are more than 7,000 aircraft of this type. And soon they will produce tens of thousands of these drones. These programmed drones cannot be used by Americans without the con-sent of some weak governments; So they push and terrorize some rulers to force them to accept their rules.

These planes kill the innocents... spread terror... and cause internal conflicts!. "

Hafidat Safiyah have interviewed some Yemenis from the most damaged villages by the American air attacks. We have visited some of those who saw the night air attacks and asked them about the drones' attacks. One of them is a tribal leader "Sheikh" of one of these villages. He said: "The victims of the American drones are civilians, and even the Ansar, the Mujahedeen, they are Muslims! How could we glad when seeing infidels killing Muslims; even if we don't agree with them on some issues!".

Another one from Al-Awlaki Yemeni tribe, the biggest tribe in the south, had expressed his fury saying: "We were shocked... really shocked... When we woke up at that day! And saw a real massacre! An entire village! Entire tribe were killed! Tens were killed easily! Most of them are women and children! How can we forget that? How could they ask us to work together with the government and with Al-Ligan Al-shaábeyah groups; when we truly know that the U.S could never attack our lands without the permission of the government! Those traitors have sold our blood to the infidels. We have a revenge with America!, and it is a shame not to take revenge whether now or afterwards!.

We will never forget!.

It is impossible to forget the Blood.

If we couldn't take revenge, then our sons will!

لا إله إلا الله

Imam Anwar Al-Awlaki, may Allah have mercy on him:

(Americans need to stop looking at themselves from their own lens, but look at themselves from the lens of the world. They will then see the ugly face of America. America is not despised only by Muslims, but by many millions of people around the world, and in America itself.).

There is no other way... except Jihad
